

Amendments to the Specification

Please **add** the following **new** paragraph after the paragraph ending on line 22 on page 3 within the brief description of the drawings section:

- figure 8 is a similar view to that of figure 5 according to another embodiment of the present invention:

Please **add** the following **new** paragraph after the paragraph ending on line 23 on page 4:

In the case of the block 80 of Figure 8, the metallic layer 82 of width less than one of the vertical faces of the block 80 has been deposited on one of the vertical faces of the block 80. Just as for the antenna of Figure 5, the metallic layer 82 has been extended via a metallic layer 83 across the face of the block 80 parallel to the face carrying the metallic layer 81. However, in the embodiment shown in Figure 8, the width (a) of the metallic layer 83 across the face of the block 80 parallel to the face carrying the metallic layer 81 is different from the width (b) of the metallic layer 82 deposited on one of the vertical faces.
